

Invest in A Golden Life

In 2017, Rescue A Golden of Arizona joined a nationwide outreach and became an international rescue, liberating Golden Retrievers from South Korean meat farms, and Turkish and Mexican streets. Since then, RAGofAZ and devoted forever families gave over forty dogs a second chance at life, and more Golden Retrievers are waiting for us to rescue them.

They all have a heartwarming success story about their new Golden life. But they come at a cost, making it necessary to charge more than the U.S. dog's adoption fees.

The minimal cost of rescuing these Golden Retrievers is \$1000 each for in-country vetting, crates, and airfare. Additionally, after they arrive, they get a routine exam, a microchip, and several tests to ensure all health needs are met. Some need to be spayed/neutered or need treatment for minor illnesses. A few require more intensive treatment.

We don't make a profit from our adoption fees; we depend on fundraising events and donations to fill the gap. To continue rescuing international Golden Retrievers, we have to increase the adoption fee. The dogs who were rescued from a horrific life seem to know they've been given a second chance and are eager to please their forever families.

Thank you for your support and for investing in a Golden life.

Note: The adoption fee for Mexican dogs remains the same as U.S. dogs.

These precious pups are worth their weight in Gold.

International Golden Adoption Fees	
Puppy to 3 Years, 11 Mos.	\$600
4 Years to 7 Years, 11 Mos	\$500
8+ Years	\$300
